CHARLES A. JONES, Treasurer.

Milton, N. H., June 15, 1898.

This certifies that I have this day examined the foregoing accounts of Charles A. Jones, treasurer, and find them properly vouched and correctly cast.

HENRY E. COBB, For Finance Committee.

ANNUAL REPORT

OF THE

❧ School Board of Milton ❧

FOR THE

YEAR ENDING MARCH 1, 1899.

Report.

No radical changes have been attempted in our schools the past year. The policy has been to continue the teachers where they give general satisfaction. Every vacancy that has occurred in the corps of teachers has been filled by our young men and women residing in town. All of these have been graduates of the Nute High School. Some of them have thus had their first experience in teaching, but we believe there has been no case of failure. In this policy of selecting our teachers from home talent, so far as such talent may be available, it should be clearly understood that our public schools are not maintained for the purpose of furnishing occupation for anyone, but for the education of our youth, and the only way in which we can rightly employ our teaching force from those residing in town, is on the condition that they shall prove themselves to be the equals or better than can be secured from without the town borders.

It may seem to some that the cost to the town for the books and supplies is considerable and that free text books tend to less careful use of books and supplies. But when we consider that we furnish supplies for nearly 275 pupils, including the resident pupils at the Nute High School, and taking into account, that the supplies include everything that is used in the school work, our annual appropriations of \$350.00, is only little more than \$1.25 per pupil. We think that the teachers for the most part exercise close care in the use of the books and supplies, and the text books for the most part are used till they are worn out. It should in justice be fully understood that while practically all the books at the high school are included as purchased by the town, all out-of-town pupils reimburse for all the books and supplies used by them. Thus for the past year some \$34.00 have

been paid back to the town of the total sum charged to the account of the high school.

There has been no school kept in the Downingville District the past year. Only a part of the time have there been any pupils residing in the district, and when there have been pupils they have been transported to the neighboring schools. All the schools on the west side are small and there is little present prospect that the number of pupils will be much increased. Economy and efficiency would be gained if the schools in that part of the town could be brought into one school. But it is not probable that the time has yet come when this can be done with the good will of all interested. The school in Hare Road District was closed at the end of twenty-five weeks, as by the removal of a family, only three pupils remained to attend. These were given the privilege of being transported to the Nute Ridge school. The school at Plummer Ridge also falls one week short of the length of the other schools on the account of the illness of the teacher. They will be entitled to an extra week the coming year.

The Nute High School does not fall under the care of your school board except in the matter of furnishing supplies. But this school is an important part of our educational system. The effort is constantly made to invite the pupils of the lower grade schools to look forward to entrance to the high school, and fit themselves for it. We are pleased to note that a larger number of our own youth are attending the high school, some thirty or more different pupils having attended this past year. This probably will compare favorably with the larger towns and cities in the percentage of high school pupils. But it is desirable that the numbers should be yet increased. The Nute High School is the generous gift of the town's greatest benefactor to the youth of the town for their higher education. This education they can only get by attendance at the school, and as they are mentally qualified to receive its instructions. Considerable numbers fail to enter the high school because they are not qualified at the age when they wish to enter, and so drop out of school altogether.

In consideration of these conditions, it would seem that an increase of the school year to at least thirty weeks in our town schools would produce two-fold results, viz: the pupils would get the benefit of the added weeks' school, and more of them would be able to become fitted for the high school, and better fitted, and so would receive the benefit of the added years they might attend the high school at practically no expense to the town.

A very few hundred dollars added to the amount now available for school purposes would give the thirty weeks' school year. In the interests of the young people we would commend to the voters, the making such additional appropriation.

Early in the school year the school board suffered the loss by death of the member whose length of service had been the longest of any of its members, Mr. Ira A. Cook. His associates on the board wish to record their high appreciation of Mr. Cook's interest in the educational work and his fidelity to the trust committed to him. His widow, Mrs. Annie E. Cook, was appointed to fill the vacancy till the next school meeting.

Respectfully submitted,

EVERETT F. FOX,	}	School Board of Milton.

Milton, N. H., Feb. 27, 1899.

Milton Free Public Library.

The trustees are glad to say that the interest in the library on the part of its patrons continues undiminished; the demand for the books is as constant and eager as when the library was founded. The collection of books although small is increasing year by year. The trustees would be pleased to receive from citizens and others donations of books to the library, which they would be willing to bestow. Such gifts would add materially to its value and would be highly prized by the patrons and gratefully acknowledged in the annual report by the trustees.

Such volumes as one has found pleasing and instructive to himself would no doubt be equally so to others. Will not some of our generous hearted townsmen and friends kindly remember our needs in this direction.

Whole number of volumes in library at last report,	433
Added by purchase,	52
